A WHOPPING 300,000 Registered Learners

We have great news to end this year; **last month the 300,000th learner registered on DLS.**

We'd like to take this opportunity to thank all our centres for championing digital skills within their workforce and contributing to this milestone. Our recent survey highlighted there is still much to be done, so keep up the good work.

Congratulations to the Care Quality Commission DLS centre where the 300,000th learner registered!

New national content available now from ESR

Adobe Shockwave was discontinued in April 2019 and is no longer supported or available to download.

The national DLS IT Skills Pathway content available from ESR has therefore been replaced with new "for the Workplace" courses that do not rely on the plug-in.

Current learners enrolled on the old content via ESR will need to complete their learning by 31st March 2020. All new enrolments from 1st December 2019 should be made to the new "for the Workplace" courses.

Those centres that use ESR to deliver DLS IT Skills Pathway courses should communicate this to current learners so that they are aware of the end date — **31st March 2020.**
